Projects

Personal Portfolio | [Link](#)

Developed a responsive personal portfolio website to showcase my skills, projects, and professional background. The site includes sections for an project gallery, resume, and contact Info. Implemented clean UI/UX principles and optimized the site for both desktop and mobile devices. Deployed the website using [GitHub Pages].

• Technologies Used: HTML, CSS, Javascript

Stock Price Forecasting Using Machine Learning

Built a time series forecasting model to predict stock prices and analyze company growth trends. Utilized ARIMA and Facebook Prophet algorithms for modeling and forecasting, focusing on capturing seasonality and trend components in historical stock data. Performed data cleaning, visualization, and evaluation using key metrics to ensure forecast accuracy. This project highlights strong skills in time-series analysis, financial data interpretation, and applying machine learning techniques to real-world business insights.

• Technologies Used: Python, ARIMA, Facebook Prophet, pandas, matplotlib

Certification

Empower Guiding center — Certified to complete UI/UX Designer

Udemy — Certified to complete Java Developer

LINUX Foundation — Certified to complete Introduction to Node.js
